ABOUT US

Our printing company was founded in Istanbul, 2008. Since then we provide services to our corporate customers, as a manufacturer of all kinds of printed folding cartons. In our new modern building we are working hard to provide our customers' needs with quality. We are focused on production for both local and global companies.

In our in-house production, we handle production of folding cartons for nutritional food and food supplements, healthcare, pharmaceuticals, etc, and cosmetics products in our factory.

We also produce other similar industrial packaging, patient information leaflets and other special products for the pharmaceutical industry (medical device sets, mini booklets and pharmaceutical promotional materials, etc.)

Our mission as customer-focused is targeting to handle our customer expectations both in pre-order and post-order period for our products.

A collection of white cosmetic products, including tubes and jars, arranged on a surface. In the foreground, there are two white daisy-like flowers and a small red fruit, possibly a cherry, with a green leaf. A large, semi-transparent blue triangle is positioned on the left side of the image, pointing towards the top right.

WE PRODUCE ELEGANT AND STYLISH
BOXES FOR THE COSMETIC INDUSTRY.

We know that our skin is our best suit.
